LinkedIn: [linkedin.com/in/aniket-rai-694b5b244](https://www.linkedin.com/in/aniket-rai-694b5b244)

Highly capable Results-driven developer proficient in Core Java and Python with hands-on experience in full-stack development and security tools. Experienced in designing and implementing automated tests and frameworks for scalable applications. Skilled in CI/CD automation, Agile methodologies, and applying AI/ML concepts to deliver high-performance solutions. Seeking to contribute to digital transformation projects, focusing on clean, efficient code and full lifecycle involvement (testing, deployment, and production support).

EDUCATION

- **Vellore Institute of Technology, Vellore** | B. Tech | Computer Science Engineering **2021-2025**
- **D.A.V Public School, Bishrampur** | XII (CBSE) **2020-2021**
- **D.A.V Public School, Bishrampur** | X (CBSE) **2018-2019**

PROJECT

- **Anomaly Detection in Smart Home IoT Networks** **(Ongoing)**
 - Collaborating on the design of an online **anomaly detection system** for smart home IoT networks, utilizing CluStream and the Page-Hinkley Test.
 - Theoretical model is designed to detect cyber threats in real time across **hundreds of simulated IoT devices**, making it suitable for resource-constrained environments.
- **File Integrity Checker – Security Monitoring Tool** | *Bash, Shell Scripting, Linux* **(Feb 2025)**
 - Developed a **cross-platform** monitoring tool using 9-point cryptographic checks for file system integrity, **ensuring data reliability for over 50 users** in a simulated network.
 - **Automated change detection** and reporting, which reduced the manual audit and **production support** time by 70%, significantly boosting maintenance efficiency.
- **Malware Detection and Classification** | *python, scikit-learn, Machine Learning* **(Dec 2023)**
 - Built and optimized a **Machine Learning (ML)** model to detect and classify malware, achieving 95% **classification accuracy** after analyzing over 10,000 samples.
 - Improved detection speed by 40% and reduced false positives by 25% using both **supervised and unsupervised learning**, enhancing threat response efficiency.

WORK EXPERIENCE.

- **Networking Analyst – Vocational Intern** | *Coal India Limited* **(Aug 2023)**
 - Applied **data-driven optimization** to network traffic, resulting in a 20% **improvement in network throughput** for critical operations.
 - Optimized data transfer protocols using **Python**, increasing network efficiency and reliably reducing data transmission latency by an average of **45ms**.
- **Junior Cybersecurity Analyst Intern** | *YHills* **(Feb 2023)**
 - Leveraged **Python** and SQL to analyze system logs, successfully increasing threat detection accuracy by 20% (from 65% to 85%) within the first two months.
 - Performed vulnerability assessments and penetration tests on **four client-facing applications** using tools like Kali Linux and Metasploit, delivering detailed remediation reports.

POSITIONS OF RESPONSIBILITY

- **Chairperson** | *VIT-Stellar* **(Jan 2024)**
 - Led a technical club with over 1500 members, **managing a quarterly budget of 23,000** while driving innovation and skill development initiatives
 - **Demonstrated collaboration and communication skills** by coordinating **45+ large-scale technical events** and workshops over the course of one year.

TECHNICAL SKILLS AND SOFT SKILLS

- **Programming Languages:** Java (Core, Multithreading, Design Patterns), Python, SQL/NoSQL, JavaScript.
- **Tools and Software:** Appium, Pytest, IBM QRadar, Kali Linux, Metasploit, Nmap, Burp Suite, Nessus, GitHub, Gradle, AWS, GCP, Edge Computing.
- **Methodologies & Concepts:** Agile/Scrum, CI/CD, DevOps, AI/ML (CluStream, Page-Hinkley Test).
- **Coursework:** Data Structures and Algorithms, Cloud Computing, Operating System, DBMS, Software Engineering, Computer Networks.

CERTIFICATIONS

- **Introduction to Product Management | LinkedIn Learning** (Mar 2025)
- **Finance Foundations: Risk Management | LinkedIn Learning** (Apr 2025)
- **Microsoft Power BI Desktop for Business Intelligence | Udemy** (Dec 2024)
- **Certified Ethical Hacker (CEH) | ECCOUNCIL** (Jan 2024)
