Recent Computer Science graduate from VIT Vellore with hands-on experience in full-stack development, AI/ML models, API design, and software automation. Built scalable applications using Python, Java, JavaScript, React, Flask, and worked with ML pipelines, data processing, and security tooling. Experienced in the software development lifecycle (SDLC) including development, testing, debugging, deployment, and maintenance. Strong foundation in DSA, backend engineering, and integrating AI/ML models into real-world systems.

EDUCATION

- **Vellore Institute of Technology, Vellore** | B. Tech | Computer Science Engineering **2021-2025**
- **D.A.V Public School, Bishrampur** | XII (CBSE) **2020-2021**
- **D.A.V Public School, Bishrampur** | X (CBSE) **2018-2019**

PROJECT

- **Anomaly Detection in Smart Home IoT Networks** **(Ongoing)**
 - Designing a real-time anomaly detection system using **CluStream & Page-Hinkley Test**, optimized for resource-constrained IoT devices.
 - Building streaming pipelines and **integrating the detection module into a Python-based application** for end-to-end simulation.
- **File Integrity Checker – Security Monitoring Tool** | *Bash, Shell Scripting, Linux* **(Feb 2025)**
 - Developed a cross-platform file integrity checker using **9-point cryptographic validation** for 50+ simulated users.
 - Automated change detection/reporting (**70% reduction** in manual audit time) and built **modular scripts + logging APIs** for system integration.
- **Malware Detection and Classification** | *python, scikit-learn, Machine Learning* **(Dec 2023)**
 - Built ML models with **95% accuracy** on 10,000+ malware samples; improved detection speed by **40%** and reduced false positives by **25%**.
 - Integrated the ML model into a **modular Python application** for real-time malware classification. **learning**, enhancing threat response efficiency.

WORK EXPERIENCE

- **Cybersecurity Engineer** | THQ **Nov 2025 - Present**
 - Managing end-to-end security operations across enterprise environments with hands-on expertise in Sophos, Fortinet, Palo Alto, AWS WAF, and SIEM tools.
 - Performing Vulnerability Assessment & Penetration Testing (VAPT) and cloud security audits, directly contributing to reduced attack surface and compliance readiness.
 - Implementing automated threat detection using Python-based scripts and DevSecOps workflows, cutting incident response time and boosting overall threat visibility.
- **Networking Analyst – Vocational Intern** | *Coal India Limited* **(Aug 2023)**
 - Applied **data-driven optimization** to network traffic, resulting in a 20% **improvement in network throughput** for critical operations.
 - Optimized data transfer protocols using **Python**, increasing network efficiency and reliably reducing data transmission latency by an average of **45ms**.
 - Assisted in debugging and validating network performance across the SDLC.
- **Junior Cybersecurity Analyst Intern** | *YHills* **(Feb 2023)**
 - Leveraged **Python** and SQL to analyze system logs, successfully increasing threat detection accuracy by 20% (from 65% to 85%) within the first two months.
 - Performed vulnerability assessments and penetration tests on **four client-facing applications** using tools like Kali Linux and Metasploit, delivering detailed remediation reports.

POSITIONS OF RESPONSIBILITY

- **Chairperson** | *VIT-Stellar* **(Jan 2024)**
 - Led a **1500+ member** technical club; managed ₹23,000 quarterly budget.
 - Coordinated **45+ workshops/events** and mentored teams on software/cloud/security projects.

TECHNICAL SKILLS AND SOFT SKILLS

- **Programming Languages:** Python, Java (Core, OOP, Multithreading), JavaScript, SQL, NoSQL.
- **Tools and Software:** GitHub, Linux, Appium, Pytest, IBM QRadar, Kali Linux, Metasploit, Nessus, Gradle, AWS, GCP.

- **Methodologies & Concepts:** SDLC, Agile/Scrum, CI/CD, DevOps, REST APIs, Microservices (Basics), AI/ML (scikit-learn, CluStream, Page-Hinkley).
- **Coursework:** Data Structures & Algorithms, Operating Systems, DBMS, Cloud Computing, Software Engineering, Computer Networks.

CERTIFICATIONS

- **Introduction to Product Management | LinkedIn Learning** (Mar 2025)
- **Finance Foundations: Risk Management | LinkedIn Learning** (Apr 2025)
- **Microsoft Power BI Desktop for Business Intelligence | Udemy** (Dec 2024)
- **Certified Ethical Hacker (CEH) | ECCOUNCIL** (Jan 2024)
