LinkedIn: [linkedin.com/in/aniket-rai-694b5b244](https://www.linkedin.com/in/aniket-rai-694b5b244)

Cybersecurity Engineer with hands-on experience in DevSecOps practices, cloud security (AWS), and security automation within deployment workflows. Skilled in integrating security controls into CI/CD pipelines, conducting VAPT, and strengthening infrastructure through IAM governance and log monitoring. Strong foundation in Linux systems, automation using Python, and compliance-aligned security practices focused on secure-by-design architecture.

EDUCATION

- Vellore Institute of Technology, Vellore** | B. Tech | Computer Science Engineering **2021-2025**
- D.A.V Public School, Bishrampur** | XII (CBSE) **2020-2021**
- D.A.V Public School, Bishrampur** | X (CBSE) **2018-2019**

PROJECT

- Anomaly Detection in Smart Home IoT Networks** **(Ongoing)**
 - Designing a real-time anomaly detection system using **CluStream & Page-Hinkley Test**, optimized for resource constrained IoT devices.
 - Building streaming pipelines and **integrating the detection module into a Python-based application** for end-to-end simulation.
- File Integrity Checker – Security Monitoring Tool** | *Bash, Shell Scripting, Linux* **(Feb 2025)**
 - Developed a Linux-based file integrity monitoring tool aligned with secure configuration management principles using 9-point cryptographic validation.
 - Automated change detection and reporting, reducing manual audit effort by 70% and enabling modular system integration.
- Malware Detection and Classification** | *python, scikit-learn, Machine Learning* **(Dec 2023)**
 - Built ML models with **95% accuracy** on 10,000+ malware samples; improved detection speed by **40%** and reduced false positives by **25%**.
 - Integrated the ML model into a **modular Python application** for real-time malware classification. **Learning**, enhancing threat response efficiency.

WORK EXPERIENCE

- Cybersecurity Engineer** | *Clarity2Cloud* **Nov 2025 - Present**
 - Integrated security checks into CI/CD workflows and automated log monitoring using Python, improving early-stage vulnerability detection across cloud-hosted applications.
 - Conducted VAPT across AWS environments, identifying infrastructure misconfigurations, insecure dependencies, and access control gaps.
 - Strengthened cloud security posture by analyzing IAM, CloudTrail, and VPC logs while collaborating with development teams to enforce secure configuration from build to runtime.
- Networking Analyst – Vocational Intern** | *Coal India Limited* **(Aug 2023)**
 - Analyzed enterprise network performance and reduced latency by optimizing traffic handling and protocol configurations.
 - Supported troubleshooting and validation of network infrastructure within SDLC-aligned operational workflows.
 - Assisted in implementing secure network segmentation and performance monitoring strategies.
- Junior Cybersecurity Analyst Intern** | *YHills* **(Feb 2023)**
 - Conducted vulnerability assessments and basic penetration testing on client-facing applications using industry-standard tools.
 - Analyzed security logs and system activity to detect abnormal behavior patterns and improve threat visibility.
 - Documented security findings and remediation steps aligned with secure development and compliance best practices.

POSITIONS OF RESPONSIBILITY

- **Chairperson** | *VIT-Stellar* **(Jan 2024)**
- Led a 1500+ member technical community, coordinating security and cloud-focused workshops and mentoring student teams.

TECHNICAL SKILLS AND SOFT SKILLS

- **Cloud & Infrastructure & Tools:** AWS (IAM, VPC, CloudTrail), Infrastructure Hardening, Access Control Policies, Cloud Security Monitoring, IBM QRadar, Nessus, Metasploit, Git, Linux, Basic Terraform Concepts.
- **DevSecOps & Automation:** CI/CD Security Concepts, Secure SDLC, Python Automation, Bash Scripting, Log Monitoring Automation
- **Security & Compliance:** VAPT, Secure Configuration Management, ISO 27001 Awareness, NIST Framework, IAM Governance.
- **Coursework:** Data Structures & Algorithms, Operating Systems, DBMS, Cloud Computing, Software Engineering, Computer Networks.

CERTIFICATIONS

- **AWS Cloud Practitioner Essentials** – Amazon Web Services **(Feb 2026)**
- **AWS IAM & Cloud Security Specialization** – Amazon Web Services **(Jan 2026)**
- **AWS Security – Encryption Fundamentals** – Amazon Web Services **(Dec 2025)**
- **Certified Ethical Hacker (CEH)** – EC-Council **(Jan 2024)**
